Hazardous Materials and International Dangerous Goods

UPS will accept domestic Air Dangerous Goods shipments prepared under D.O.T. 49 C.F.R. or the International Air Transport Association (IATA) regulation sets. The domestic Hazardous Materials and International Dangerous Goods functionality is integrated into the current version of WorldShip®. Contact the Hazardous Materials Support Center at 1-800-554-9964 for more information.

Select Hazardous Materials, as defined and regulated under Title 49 of the Code of Federal Regulations (49 C.F.R.), and Dangerous Goods, as defined under the International Civil Aviation Organization (ICAO) and published in the IATA *Dangerous Goods Regulations*, are accepted for transportation only as a contractual service domestically within and between all 50 states and Puerto Rico, and internationally within or between defined service areas.

Setting Up Service for Hazardous Materials and Dangerous Goods

To receive Hazardous Materials or Dangerous Goods service, including UPS Standard™ to Canada, the shipper must have a Scheduled Pickup account and agree to the provisions set forth in the online UPS Dangerous Goods Agreement Checklist or an approved prior domestic or international agreement, or have these same provisions incorporated into their existing customized contract.

Alaska, Hawaii, Puerto Rico and Catalina Island

UPS does not accept hazardous materials, including Consumer Commodities, Other Regulated Materials for Domestic Transport Only (ORM-D), Limited Quantities and combustibles, via UPS Ground Service to and from Alaska,

Hawaii, Puerto Rico and Catalina Island. Many products that are not regulated or do not require shipping papers via UPS Ground are fully regulated when transported via aircraft. Hazardous Materials are accepted for transportation via UPS air to and from Alaska, Hawaii, Puerto Rico and Catalina Island only in passenger aircraft quantities (some class 9 exceptions are listed in the UPS Chemical Table) and prepared according to the requirements set forth in either Title 49 of the Code of Federal Regulations (49 C.F.R.) or in the IATA regulations and the *UPS Guide for Shipping Ground and Air Hazardous Materials* at [ups.com/hazmat](https://www.ups.com/hazmat).

UPS 3 Day Select®

When preparing Hazardous Materials packages for UPS 3 Day Select, packages must be prepared in accordance with the applicable air regulations. Many products that are not regulated or do not require shipping papers via UPS Ground are fully regulated when transported via aircraft. Hazardous Materials are accepted for transportation in UPS 3 Day Select only in passenger aircraft quantities (some class 9 exceptions are listed in the UPS Chemical Table) prepared according to the requirements set forth in either Title 49 of the Code of Federal Regulations (49 C.F.R.) or in the IATA regulations and the *UPS Guide for Shipping Ground and Air Hazardous Materials*, available at [ups.com/hazmat](https://www.ups.com/hazmat).

Other Regulated Materials (ORM-D)/ Limited Quantities (Ltd Qty)

Other Regulated Materials (ORM-D) and Limited Quantity (Ltd Qty) shipments prepared under HM-215K are accepted for transportation without Hazardous Materials shipping papers

and without a contract, only within the 48 contiguous states via UPS Ground and UPS Hundredweight Service®, and via UPS Standard to Canada and UPS Ground Intra-Alaska and Intra-Oahu services, when properly classified, packaged and marked, provided the shipper has reviewed the service restrictions with a UPS representative.

Ltd Qty (HM-215K) packages shipped via UPS domestic Air Services and UPS 3 Day Select within the U.S. and Puerto Rico, and Consumer Commodity and Ltd Qty shipments to International Dangerous Goods (IDG) destinations, are accepted for transportation on a contractual basis only.

International Dangerous Goods (IDG)

UPS accepts International Dangerous Goods on a contract basis only. The *UPS Guide for Shipping International Dangerous Goods* should always be used in conjunction with the most current IATA *Dangerous Goods Regulations*. Special Packaging Needs

PACKAGE

If you ship the following items, consider their special packaging needs.

Batteries

A variety of batteries are regulated as hazardous materials by the U.S. Department of Transportation (DOT) and International Air Transport Association (IATA). For assistance in determining whether or not your battery shipment is regulated, please call the DOT's Hazardous Materials Info-line at 1-800-467-4922. Batteries requiring shipping papers may only be tendered by contract hazmat shippers. (See the *UPS Guide for Shipping Ground and Air Hazardous Materials* at [ups.com/hazmat](https://www.ups.com/hazmat).) Any device with batteries installed must have their on/off switch protected from being activated, or have the batteries removed with the terminals protected. Simple devices like flashlights or rechargeable drills can generate a dangerous amount of heat if accidentally activated. Electronic items sent for repair, such as computers and cell phones, should be sent without batteries. For additional information regarding the shipment of batteries, please go to [ups.com](https://www.ups.com)® and enter "Batteries" in the search field.

Bundled or Strapped Boxes

Only same-sized boxes may be strapped together. Use a minimum of four crisscrossed bands, two in each direction. An address label must be placed on each box. When strapping boxes together, each box must be strong enough to hold the total weight of the strapped bundle. For example, if two 15-pound boxes are banded together into a 30-pound package, both components should be in boxes with at least a 30-pound weight capacity. An Additional Handling charge may apply. Refer to page [117](#) for more information.

Electronic Media

To ship electronic media that contain sensitive personal information (such as personal financial or health information), we recommend that you do not use an envelope, letter packaging, UPS Express® Envelope, UPS Express® Envelope – Reusable, UPS Express® Pak or UPS Express® Pad Pak. UPS provides special packaging, the UPS Express® Hard Pak – Secure, which is designed to help you ship sensitive electronic media. Call 1-800-PICK-UPS® or your sales representative for more information. You can also ship electronic media containing sensitive personal information by packaging it with a duplicate shipping label in an inner container that can be securely sealed. Place the inner container in a new outer corrugated box. Seal all flaps securely. Prior to packaging, mark the electronic media with identifiable information such as your company name, reference number or your UPS shipping number. Additionally, the shipper should retain a copy of the data and secure the data on the electronic media through encryption or other technological means.

Fabric and Wallpaper

Rolled goods travel best when shipped in corrugated boxes. If a fabric or wallpaper roll is shipped in a bag, UPS recommends a bag with a minimum thickness of six mils. Make sure the bag is tightly wrapped and taped against the roll to reduce the risk of tearing. A tail on an item shipped in a bag must be compressed to the body of the item using tape. Place the address label on a flat surface of the item being shipped. Place duplicate address labels inside cores or between top layers of material. An Additional Handling charge may apply. Refer to page [117](#) for more information.

Special Packaging Needs

PACKAGE

Irregularly Shaped Items and Bare Metals

Tape the address label on a flat surface of the item being shipped. Cover the label with clear tape. Do not use “flying tags” attached by string or metal. Blunt all sharp or protruding edges with taped-on, corrugated cardboard pieces. Protect the surface of the item as needed. An Additional Handling charge will apply. Refer to page [117](#) for more information.

Large and/or Heavy Packages

Packaging materials need to be evaluated carefully for packages weighing more than 70 pounds.

A UPS Heavy Package sticker is required whenever you ship packages weighing more than 70 pounds. Place the sticker to the right of the address label and write the package’s weight in the white box. It also helps to highlight every side of your package with Heavy Package highlight tape. This sends a warning to those who risk lifting your package, both your employees and ours. Customers with a UPS account can request supplies, free of charge, by selecting “Order Supplies” from the left side of the [ups.com](#)® homepage or by calling 1-800-PICK-UPS®. An Additional Handling charge will apply. Refer to page [117](#) for fees.

Tires

Apply a wide band of pressure-sensitive tape through the center and completely around the body of the tire so that the tape is attached to itself. Attach your address label to the tape band where it covers the tread. Cover the entire label with clear tape. An Additional Handling charge will apply. Refer to page [117](#) for more information.

UPS WORLDWIDE EXPRESS FREIGHT®, AIR FREIGHT AND LESS-THAN-TRUCKLOAD

Preparing Your Freight Shipment

UPS Worldwide Express Freight

UPS Worldwide Express Freight is for palletized shipments. Pre-authorization is required for all UPS Worldwide Express Freight shipments over 4,400 pounds. For UPS Worldwide Express Freight, scheduling a pickup or drop-off is required on all shipments through WorldShip®, UPS Internet Shipping, UPS CampusShip®, a UPS Ready® solution, UPS Developer Kit, [ups.com](https://www.ups.com)® or by calling 1-800-782-7892.

Air Freight and LTL

Air Freight and LTL shipments can include combinations of palletized

items or boxes that are too large to ship using other UPS services. Air Freight and LTL can also include multiple non-palletized pieces. UPS will accept freight shipments of any weight. However, minimum weight charges apply. Pre-authorization is required for Air Freight shipments that exceed 120 inches in length, 84 inches in width, 76 inches in height or 5,000 pounds in weight.

Palletized Freight

Palletizing freight helps multiple-piece shipments remain together and provides increased protection from damage.

Each pallet, including its contents, is considered one piece.

Non-Palletized Freight

Loose items, such as boxes or containers that have not been secured to a pallet, are considered non-palletized freight. Each loose item is considered one piece and can be shipped via Air Freight or LTL services.

Palletizing Your Shipment

UPS Worldwide Express Freight, Air Freight and LTL

Pallets are portable rigid platforms used to consolidate shipments and allow for ease of freight movement. Quality pallets are commonly made of either wood or plastic and can weigh between 20 and 70 pounds. Pallets

should be large enough to accommodate the shipment without overhang. Anything overhanging the pallet edges may be damaged from punctures, abrasions and compression.

UPS Worldwide Express Freight shipments must be palletized, stackable,

able to be lifted by forklift, and shrink-wrapped or banded to the pallet. For Air Freight shipments, if your non-palletized shipment does not meet the minimum billable weight per piece, consider palletizing prior to UPS pickup.

Step-by-Step

The following are basic step-by-step instructions for palletizing your freight for UPS Worldwide Express Freight, Air Freight and LTL shipments.

1. Select Pallets.

- Choose pallets large enough to prevent overhang of shipment pieces
- Pallets must be sturdy enough to support the load
 - Select pallets with closely spaced pallet deck boards
 - Never exceed the rated capacity of your pallet
- Do not select pallets with broken boards or protruding nail heads

Palletizing Your Shipment

1. Select a four-way entry pallet for your freight shipment.

2. Stack boxes in columns. Avoid placing freight beyond pallet edges.

3. Use strapping with stretch wrap to secure boxes to the pallet.

- Pallets with four-way forklift entry are preferred as they help to improve handling and reduce damage to the shipment

2. Stack Boxes on Pallet.

For shipments that contain boxes or stackable pieces:

- Ensure cartons are new and of proper strength to withstand stacking

Many locations of The UPS Store® can handle LTL freight packaging and shipping for you. Visit [theupsstore.com](https://www.theupsstore.com) for more information.

Packaging Guidelines

UPS WORLDWIDE EXPRESS FREIGHT®, AIR FREIGHT AND LESS-THAN-TRUCKLOAD

Step-by-Step (continued)

- Securely close, staple and/or seal cartons
- Protect product from internal vibration with proper amounts of dunnage within cartons; no void areas/spaces between product or on top of carton
- Remove old labels from shipping cartons and product
- Affix labels with complete address information for the shipper and the consignee, to each piece
- Align boxes in columns, corner to corner, for the greatest stacking strength
- Avoid interlocking or rotating layer patterns
- Do not align corners over the spaces between pallet deck boards
- Boxes should not extend past the pallet edges
- Do not pyramid the boxes; keep the top layer flat to prevent damage from top loads

- Use a slip sheet under the load and every third layer when possible to help distribute the weight evenly and protect the bottom layer

3. Secure Shipment to Pallet.

- Use a minimum of 60 gauge stretch wrap, five revolutions recommended; tie to pallet and across top to prevent shifting
- For Air Freight and LTL, label all handling units with shipper/consignee information and PRO Numbers (at minimum all four vertical sides, interior and exterior of the stretch wrapping); use markers if having adhesion issues
- To ensure stability corner boards and banding are recommended
- Use three-way locking - nailed corners (not staples) on crates; angle board must extend from the deck board to the top of the pallet load
- Insert layers of cardboard between layers of freight to absorb vibration; distribute the weight evenly

4. Label Shipment.

- For UPS Worldwide Express Freight, apply labels to each side of the pallet and on top of the pallet. Each label should have telephone numbers and complete address information, including postal code of the shipper and the consignee
- For Air Freight, label each pallet with telephone numbers and complete address information, including postal code of the shipper and the consignee
- Ensure information on the Bill of Lading (BOL) matches the shipment
- Indicate in proper location on the BOL and check contract/tariff for liability limits if excess declared value is needed
- Do not pyramid, ship or accept prohibited items or freight that overhangs the pallet

Protecting Your Palletized Shipment from Damage

Solution	Description
Corner/Edge Boards	<ul style="list-style-type: none"> - Increase vertical stacking strength, prevent damage to corner edges and stabilize the load. - Should extend to the full height and length of the load and should be used on all corners.
Strapping or Banding	<ul style="list-style-type: none"> - Prevents pieces from getting lost or separated from the load. - Should be drawn tightly to the load, possibly requiring running it underneath the top deck boards of the pallet.
Stretch Wrapping	<ul style="list-style-type: none"> - Use as an effective way to keep all pieces of a shipment together. - Should first be applied around the pallet and continued upward around the load. - Must be tight to prevent load shifting. - Capture the pallet when wrapping bottom layer. - Designed to stabilize the load, not to secure it to the pallet. - Strapping or banding should be used in conjunction with stretch wrap to secure the load to the pallet.
Top/Bottom Load Protector	<ul style="list-style-type: none"> - Layers of corrugated fiberboard or heavy paperboard. - Use to help evenly distribute the weight of shipments that can be stacked upon one another.

Packaging Guidelines

UPS WORLDWIDE EXPRESS FREIGHT®, AIR FREIGHT AND LESS-THAN-TRUCKLOAD

Preparing Non-Palletized Freight

If you do not plan to secure your shipment to pallets, follow the steps below for Air Freight and LTL services. UPS Worldwide Express Freight does not accept non-palletized freight shipments.

1. Ship freight in corrugated boxes (avoid reusing boxes), crates or shipping containers.

2. Use a container strong enough to support the weight of contents.

3. Use at least two inches of appropriate cushioning material to protect internal items from each other and the corners, sides, top and bottom of containers. Appropriate cushioning material would include corrugated fiberboard, multiple layers of folded newspaper, styrofoam sheets, packing blankets, etc.

4. Reinforce edges to protect from bending.

5. Securely seal closures and seams with reinforced tape.

6. Label each piece with telephone numbers and complete address information, including postal code of the shipper and the consignee.

Preparing for Pickup

Air Freight and LTL

Pickup is available for all Air Freight and LTL services. Your freight pickup request is initiated when you Create a Shipment for freight on [ups.com](https://www.ups.com)®, WorldShip® or My LTL Freight.

Some Air Freight shipment pickup requests require pre-authorization.

How to Label Air Freight and LTL Shipments

Each piece of palletized or non-palletized freight must be clearly marked with telephone numbers and complete address information, including postal code of the shipper and the consignee. Indicate on freight labels if any pieces require C.O.D. service.

Determine the Weight and Size

PACKAGE

For All Domestic and International Shipments

The Determine the Weight and Size information on this page and the next page are for package shipments only. For information on how to determine the weight and size for UPS Worldwide Express Freight® refer to page 18.

Shipping rates are based on package weight and size (explained below and on the following page) and origin-to-destination distance (refer to page 27 for Domestic, Export and Import).

Billable weight is the weight used to calculate the rate. For domestic and international services, the billable weight will be the greater of the dimensional weight as compared to the actual weight.

How to determine billable weight.

1. Determine actual weight.

Actual weight is the package weight rounded up to the next whole pound.

Use a scale to determine the weight of the package. Round any fraction of a pound to the next whole pound for UPS Express® Envelopes (letters) over eight ounces and all other packages.

2. Determine dimensional weight.

Dimensional weight reflects package density, which is the amount of space a package occupies in relation to its actual weight. Dimensional weight may apply to all UPS domestic and international package services.

Determine the package dimensions in inches. For each dimension, measure at the longest point, rounding each measurement to the nearest whole number (for example, 1.00 to 1.49 will be considered 1, and 1.50 to 1.99 will be considered 2).

Multiply the package length by the width by the height. The result is the cubic size in inches.

For domestic shipments:

UPS Air Services shipments – Divide the cubic size in inches by 166 to determine dimensional weight in pounds. Increase any fraction to the next whole pound.

UPS Ground shipments – If the cubic size of the package in inches is 5,184 or larger, divide the cubic size by 166 to determine dimensional weight in pounds. Increase any fraction to the next whole pound. If the cubic size

in inches is less than 5,184, use the actual weight of the package.

For international shipments:

For export and import shipments, divide the cubic size in inches by 139 to determine the dimensional weight. Increase any fraction to the next whole pound.

For import shipments by way of UPS Standard™ from Canada, divide the cubic size in inches by 166 to determine the dimensional weight. Increase any fraction to the next whole pound.

For UPS Standard™ to Canada shipments – If the cubic size of the package is 5,184 cubic inches or greater, divide the cubic size in inches by 139 to determine the dimensional weight. Increase any fraction to the next whole pound.

3. Determine billable weight.

Compare the package's actual weight to its dimensional weight. The greater of the two is the billable weight and should be used to calculate the rate.

For multiple-package shipments, total the billable weight of all packages in the shipment.

PACKAGE

For All Domestic and International Shipments (continued)

Additional Information on Determining Weight and Size.

– **Letter rates** apply for domestic and international documents, correspondence and electronic media shipments that do not exceed eight ounces sent in a UPS Express® Envelope. Domestic letters greater than eight ounces will be billed by weight (rounded up to the next whole pound). Export letters greater than eight ounces and up to two pounds will be billed at UPS Express® Pak rates. Export letters greater than two pounds will be billed by weight (rounded up to the next whole pound).

– **UPS Express Pak rates** apply for export shipments that weigh two pounds or less, do not exceed \$100.00 in customs value and UPS Express Pak is selected at the time of shipping.

– **Irregularly Shaped Packages:**
If the package has a bulge or is irregularly shaped, measure the length, width and height of the package at its extreme points, which may include the bulge or irregular aspects of the package.

Treat the irregularly shaped package as if it were in a regular rectangular box. Measure the length, width and height of the package from its extreme points.

– **Items Shipped in Bags:**
Shape – When multiple items are shipped in a flexible container (e.g., burlap or plastic bag), the package measurements will be determined when the exterior is at rest. As this shape will differ from placement to placement, cubic size or package measurements will be made at the sole discretion of UPS.

Tails – A tail on an item shipped in a bag should be measured for the amount of space it takes up in a reasonably compressed fashion. Any tail that is created by placing an item in a bag must be compressed and taped to the body of the item.

– Packages that exceed UPS weight and size limits are not accepted for transportation. If found in the UPS system, they are subject to an Over Maximum Limits charge. Refer to page 118 for more information. For Maximum Weight service restrictions, refer to page 8. For shipments over 150 pounds other than UPS Worldwide Express Freight®, refer to pages 72 and 73 for Air Freight and page 6 for UPS Freight® Less-Than-Truckload.

– A **Large Package Surcharge** may apply to domestic and international shipments.

A package is considered a “Large Package” when its length plus girth $[(2 \times \text{width}) + (2 \times \text{height})]$ combined exceeds 130 inches.

Large Packages are subject to a minimum billable weight of 90 pounds. An Additional Handling charge will not be assessed when a Large Package Surcharge is applied.

– Shippers are responsible for providing accurate and complete shipment information on the shipping document or in the automated processing system used, including service selected, number, weight and dimensions of packages. UPS reserves the right to audit any package and/or invoice to verify service selection, package dimensions or weight and applicability of any charges. As part of that audit, UPS may weigh and measure any package tendered to UPS using any method UPS deems appropriate including, but not limited to, multi-dimensional measuring devices. If any aspect of the shipment information provided by the shipper is incomplete or incorrect as determined by UPS in its sole discretion, UPS may adjust charges at any time.

Follow the instructions on this page and the previous page to determine the billable weight for your package shipments. Refer to page 18 for UPS Worldwide Express Freight.

Notes:

- Size limits indicated by a box manufacturer may not reflect exterior dimensions of a package, including where a package may have bulges or otherwise may not be uniform across each plane, and should not be used as a substitute for actual length, width and height measurements in determining dimensional weight.
- Improper packaging may result in the alteration of a package’s dimensions during transit which can affect the package’s dimensional weight and result in a shipping charge correction.

WorldShip®, UPS Internet Shipping, UPS CampusShip®, UPS Ready® solutions and applications available in the UPS Developer Kit will automatically calculate dimensional weight when you enter the package weight and dimensions.

Determine the Weight and Size

UPS WORLDWIDE EXPRESS FREIGHT®

For International Palletized Shipments

Shipping rates are based on the shipment weight, including the weight of the pallet, and size and origin-to-destination distance (refer to page 27 for Export and Import).

Billable weight is the weight used to calculate the rate. The billable weight will be the greater of the dimensional weight as compared to the actual weight.

How to determine billable weight.

1. Determine actual weight.

Actual weight is the weight of the items on the pallet and the weight of the pallet, rounded up to the next whole pound.

Use a scale to determine the weight. Round any fraction of a pound to the next whole pound.

2. Determine dimensional weight.

Dimensional weight reflects pallet density, which is the amount of space a pallet occupies in relation to its actual weight. Dimensional weight may apply to all UPS Worldwide Express Freight shipments.

Determine the pallet dimensions in inches. For each dimension, measure at the longest point, rounding each measurement to the nearest whole number (for example, 1.00 to 1.49 will be considered 1, and 1.50 to 1.99 will be considered 2).

Multiply the pallet length by the width and by the height. The result is the cubic size in inches.

For export and import shipments, divide the cubic size in inches by 139 to determine the dimensional weight. Increase any fraction to the next whole pound.

3. Determine billable weight.

Compare the pallet's actual weight to its dimensional weight. The greater of the two is the billable weight and should be used to calculate the rate.

Additional Information on Determining Weight and Size.

– Pallets that exceed maximum size or weight restrictions (which vary by origin and destination) as set forth at [ups.com/palletmaximums](https://www.ups.com/palletmaximums) are not accepted for transportation. If found in the UPS system, they are subject to an Oversize Pallet Handling Surcharge. Refer to page 119 for more information.

– An Oversize Pallet Handling Surcharge will also apply to UPS Worldwide Express Freight when a pallet's dimensions exceed thresholds that vary by origin and destination as set forth at [UPS Worldwide Express Freight Pallet Dimensions Resulting in the Oversize Pallet Handling Surcharge](#). Refer to page 119 for more information.

U.S. Export and Import

$$\left[\begin{array}{l} \text{Dimensional Weight} \\ \text{in Pounds} \end{array} \right] = \frac{L \times W \times H}{139}$$

L = Length in inches

W = Width in inches

H = Height in inches

Billable Weight Calculation

Customer has a shipment with 3 pallets weighing 600 pounds, 800 pounds and 1,000 pounds. All pallets are the same size with the following dimensions: 48 in. x 40 in. x 60 in.

1. Determine actual weight.

Actual Weight = 600 lbs. + 800 lbs. + 1,000 lbs. = 2,400 lbs.

2. Determine dimensional weight.

Pallet Dimensional Weight = $\frac{48 \text{ in.} \times 40 \text{ in.} \times 60 \text{ in.}}{139} = 829 \text{ lbs.}$

Shipment Dimensional Weight = 829 lbs. + 829 lbs. + 1,000 lbs. = 2,658 lbs.

3. Determine billable weight.

Shipment Billable Weight = 2,658 lbs.

How to Determine Billable Weight*

Compare the freight shipment's minimum billable weight, actual weight and dimensional weight. The greatest of the three is the billable weight and should be used to calculate the rate.

1. Determine minimum billable shipment weight.*

– Minimum billable weight for loose items is the greater of 151 pounds or the number of pieces multiplied by 20 pounds.

Service	Minimum Weight per Piece	Minimum Weight per Shipment
UPS Next Day Air® Freight, UPS Next Day Air® Freight NGS, UPS 2nd Day Air® Freight, UPS 2nd Day Air® Freight NGS, UPS 3 Day Freight®, UPS 3 Day Freight® NGS	20 Pounds	151 Pounds

2. Determine actual weight and round up any fraction of a pound or kilo to the next whole pound or kilo.

3. Determine dimensional weight.

For each dimension, measure at the longest point, rounding each measurement to the nearest whole number. Multiply the shipment length by the width by the height. The result is the cubic size. Divide the cubic size by the dimensional weight factor located in the matrix below to determine the dimensional weight.

Service	Origin	Destination	Dimensional Weight Factor (Inches/Pounds)	Dimensional Weight Factor (Centimeters/Kilos)
UPS Air Freight Direct®, UPS Air Freight Consolidated®	All	All	166	6,000
UPS Next Day Air Freight, UPS Next Day Air Freight NGS, UPS 2nd Day Air Freight, UPS 2nd Day Air Freight NGS, UPS 3 Day Freight, UPS 3 Day Freight NGS	U.S.	U.S. and PR	166	6,000

	U.S.	CA		
	PR	CA		

To convert metric measurements into pounds, multiply the result by 2.20462. To convert imperial measurements into kilos, multiply the result by 0.453592. Increase any fraction to the next whole pound or kilo.

**The minimum billable weight of 20 pounds per loose piece applies to Air Freight within and between the U.S., Canada and Puerto Rico only. If your non-palletized shipment does not meet the minimum weight of 20 pounds per piece, consider palletizing. Palletizing will ensure your shipment does not fall below the per-piece minimum billable charge.

†Pallet billable weight is equal to the shipment weight (315 pounds) plus the weight of a pallet (approximately 40 pounds). Note: Each pallet with its secured contents is entered as one piece.

Domestic

- For each UPS Next Day Air® Early A.M.® package with a dimensional weight of more than 150 pounds, multiply the weight by the price per pound and add \$30.00. For all other UPS domestic services with a dimensional weight of more than 150 pounds, multiply the weight by the price per pound.
- The Letter rate applies only to documents, correspondence and electronic media shipments that do not exceed eight ounces sent in a UPS Express®

Envelope. UPS Express Envelopes exceeding eight ounces are subject to the rate corresponding to the weight of the UPS Express Envelope. UPS Express Envelopes are not recommended for shipments of electronic media containing sensitive personal information.

- When using a 10 KG or 25 KG box, shipments that exceed the maximum weights (10 KG/22 pounds and 25 KG/55 pounds) will be charged the regular UPS Worldwide Express Plus® or UPS Worldwide Express® rate. Available only when the shipper is paying the shipping charges.

Export

Shipment Pricing

UPS Worldwide Express Plus[®], UPS Worldwide Express[®], UPS Worldwide Express Freight[®], UPS Worldwide Saver[®], UPS Worldwide Expedited[®] and UPS Standard[™]

Shipment pricing is advantageous because rates are based on the total weight of a shipment, not the sum of the rates for each package in a shipment.

What Qualifies

1. The shipment consists of multiple packages, using the same service, shipped on the same day to a single consignee.
2. You use WorldShip[®], UPS Internet Shipping, UPS CampusShip[®], the UPS Developer Kit or a UPS Ready[®] solution that supports full international service, or a UPS Worldwide Services Waybill. UPS Mobile[™] supports package and document shipments originating from the U.S., Canada, UK, Germany, France and Italy.

What Does Not Qualify

Shipment pricing does not apply to UPS Express[®] Envelopes, UPS Express[®] Paks, the UPS 10 KG Box[®], the UPS 25 KG Box[®] or packages recorded in a UPS Shipping Record book; they are each considered separate shipments.

Rates

Rates are based on the total billable weight of all packages in the shipment. Compare each package's actual weight to its dimensional weight. The greater of the two is the billable weight and should be used to calculate the rate. For multiple-package shipments, total the billable weight of all packages in the shipment. Refer to pages [16](#) and [17](#) for instructions on calculating dimensional and billable weight.

If the payer of the shipping charges is located in the origin country, the shipment will be charged the export rate (Origin Country Export Rates). When the payer of the shipping charges is located in the destination country, the shipment will be charged the import rate (Destination Country Import Rates). If the destination country does not have

import rates, the shipment will be charged the export rate (Origin Country Export Rates). When the payer of the shipping charges is located in a third country (neither origin nor destination country), the shipment will be charged the Origin Country Export Rates, except as otherwise agreed to by UPS and the contracting party.

For shipments weighing 150 pounds or less, locate the rate for the total weight of the shipment on the appropriate rate chart.

For shipments weighing more than 150 pounds, multiply the total weight (rounded to the next whole pound) by the appropriate price per pound. The amount billed will be the result of this calculation or the minimum rate shown, whichever is greater.

For a multiple-package UPS Standard shipment, the minimum charge will be based on an average weight of 15 pounds per package.

Customs Brokerage

For UPS Worldwide Express Plus, UPS Worldwide Express, UPS Worldwide

Saver, UPS Worldwide Expedited and UPS Standard[™] to Mexico rates include routine, in-house, customs clearance by UPS Supply Chain Solutions[®]. Additional charges will apply if customs clearance is performed by customs brokerage offices other than those designated by UPS for clearing the services listed above.

Customs clearance for the services listed is provided by the UPS Supply Chain Solutions customs brokerage offices designated by UPS for handling package customs clearance. Other UPS Supply Chain Solutions customs brokerage offices charge fees for clearance of packages and freight.

For UPS Standard[™] to Canada, charges for customs clearance are not included in the rate. UPS will provide Customs Brokerage Services, unless otherwise specified by the importer. Customs brokerage charges, duties and taxes will be billed to the importer, unless otherwise indicated by the shipper. Canada brokerage rates are available at [ups.com/cacustomsclearance](https://www.ups.com/cacustomsclearance).

Import Shipment Pricing

UPS Worldwide Express Plus[®], UPS Worldwide Express NA1[®], UPS Worldwide Express[®], UPS Worldwide Express Freight[®], UPS Worldwide Saver[®], UPS Worldwide Expedited[®], UPS 3 Day Select[®] from Canada and UPS Standard[™]

Shipment pricing is advantageous because rates are based on the total weight of a shipment, not the sum of the rates for each package in a shipment.

What Qualifies

1. The shipment consists of multiple packages, using the same service, shipped on the same day to a single consignee.
2. For shipments processed with WorldShip[®], UPS Internet Shipping, UPS CampusShip[®], the UPS Developer Kit or a UPS Ready[®] solution that supports full international service, or a UPS Worldwide Services Waybill.

What Does Not Qualify

Shipment pricing does not apply to UPS Express[®] Envelopes, the UPS 10 KG Box[®] or the UPS 25 KG Box[®]; they are each considered separate shipments.

Rates

Rates are based on the total billable weight of all packages in the shipment. Compare each package's actual weight to its dimensional weight. The greater of the two is the billable weight and should be used to calculate the rate. For multiple-package shipments, total the billable weight of all packages in the shipment. Refer to pages [16](#) and [17](#) for instructions on calculating dimensional weight.

If the payer of the shipping charges is located in the origin country, the shipment will be charged the export rate (Origin Country Export Rates). When the payer of the shipping charges is located in the destination country, the shipment will be charged the import rate (Destination Country Import Rates). If the destination country does not have

import rates, the shipment will be charged the export rate (Origin Country Export Rates). When the payer of the shipping charges is located in a third country (neither origin nor destination country), the shipment will be charged the Origin Country Export Rates, except as otherwise agreed to by UPS and the contracting party.

Unless otherwise specified at the time of shipping, shipping charges are billed to the shipper. In the event of non-payment by consignee or third party, the charges are billed to the shipper. Refer to page [110](#) for more information on billing options.

For shipments weighing 150 pounds or less, locate the rate for the total weight of the shipment on the appropriate rate chart.

To determine the rate for a shipment weighing more than 150 pounds, multiply the total weight (rounded to the next whole pound) by the appropriate price per pound as shown under the shipment weight designations above 150 pounds. The amount billed will be the result of this calculation or the minimum rate shown, whichever is greater.

For a multiple-package UPS Standard shipment, the minimum charge will be based on an average weight of 15 pounds per package.

All rates for UPS international services, except UPS Standard[™] from Canada, include routine, in-house, customs brokerage. For more information on customs brokerage for import shipments, refer to pages [124](#) to [128](#).

- All UPS Worldwide Express Plus[®], UPS Worldwide Express NA1[®], UPS Worldwide Express[®], UPS Worldwide Express Freight[®], UPS Worldwide Saver[®], UPS Worldwide Expedited[®], UPS 3 Day Select[®] from Canada and UPS Standard[™] to/from Mexico rates include routine customs clearance. Routine customs clearance is built into your rates when you use UPS to perform the customs clearance for any of these services.
- Additional services such as parts database management, customer-specific classification directives, special operating plans, assigned rating team, custom reporting and other value-added services are part of our Customized Brokerage Services and subject to a customs entry fee and/or other charges. Please see

Customized Brokerage Services in the Special Services section below for more information.

- UPS also provides services designed to facilitate movements of your UPS Standard[™] shipments to and from Canada (see brokerage rates into Canada at ups.com/rates/ca) and other non-routine services that include formal entry clearance, live entry clearance, temporary import bonds and duty drawbacks. In addition, UPS can provide customs clearance for other ocean, air freight, truck and rail U.S. imports. The importer is responsible for all brokerage fees, including duties and taxes. See charts on the following pages for more information.
- The UPS Service Guarantee does not apply when customs clearance is performed by brokerage offices other than those designated by UPS, or if a service delay is the result of certain

events beyond our control, such as a government agency hold.

- Customs clearance for services specified here is provided by the UPS Supply Chain Solutions[®] customs brokerage offices designated by UPS for handling package customs clearance. Other UPS Supply Chain Solutions customs brokerage offices charge fees for clearance of packages and freight. Customs clearance and brokerage services are subject to the Customs Brokerage and Freight Forwarding Terms and Conditions/ U.S. located at ups-scs.com/tools/terms.html.

For more information on any of our Customs Brokerage Services, call 1-800-782-7892.

UPS Broker of Choice[®]

With UPS Broker of Choice, importers select their own alternate customs broker for customs clearance of their UPS international shipments. This service is available for all UPS international shipments, except for UPS Standard service.

This contractual, fee-based service ensures that the established relationship with a customs broker can remain in place while the importer continues to utilize UPS for their international shipping needs. Using UPS Broker of Choice enables importers that have concerns about specific commodities or product lines to retain a particular

broker familiar with this portion of the business, while continuing to utilize UPS brokerage expertise for others.

Through the use of UPS technology, shipment information, as well as shipment documentation (e.g., commercial invoice), will be proactively available at the time of export for the broker to retrieve, thus enhancing the broker's ability to clear the shipment in a timely manner.

Importers have two options:

1. UPS Broker of Choice OnSite keeps shipments in UPS's possession while the importer's customs broker completes

customs clearance procedures prior to UPS completing delivery of the shipment.

2. UPS Broker of Choice OffSite moves shipments in-bond directly to a customs-controlled (bonded) warehouse (at the importer's direction), where the importer's customs broker completes the customs clearance procedures. The UPS transport is completed upon delivery of the shipment to the warehouse. Refer to page [127](#) for fees.

Note: For information on UPS Customs Brokerage Services for your freight needs, including the Customs Brokerage and Freight Forwarding Terms and Conditions, please visit ups-scs.com.

UPS FTZ Facilitator®

With UPS FTZ Facilitator, importers and exporters have the ability to use UPS to transport international shipments in-bond to and from a global Free/Foreign Trade Zone (FTZ). This service is available for all UPS international shipments, except for UPS Standard™ service.

This contractual, fee-based service allows the shipment of goods to and from an FTZ, while retaining the benefits of UPS's transportation network. Using UPS as a single source enables

importers and exporters to increase visibility and tracking, and reduce the chance for errors and costs associated with utilizing multiple transportation providers.

Through the use of UPS technology, shipment information, as well as shipment documentation (e.g., commercial invoice), will be proactively available at the time of export for our customer, customer's broker or FTZ operator to retrieve, thus enhancing their ability

to process the FTZ entry in a timely manner.

Importers will choose FTZ Facilitator Import to direct shipments to be delivered in-bond to a designated FTZ rather than being cleared through customs.

Exporters will choose FTZ Facilitator Export to ship goods in-bond from an FTZ to an international destination. Refer to page [127](#) for fees.

Solutions for Managing Your Invoice

UPS offers a variety of options to help you manage your shipping costs by allowing you to determine who pays what portion of the shipping charges.

UPS Billing/Payer Options

Options	Description
PACKAGE, AIR FREIGHT AND LESS-THAN-TRUCKLOAD	
Bill Shipper (Prepaid)	- Shipper's UPS package, air freight or LTL account is billed for shipping charges.
Bill Receiver (Freight Collect)	- Receiver's UPS package, air freight or LTL account is billed for shipping charges.
Bill Third Party	- A third party's UPS package, air freight or LTL account is billed for shipping charges.
INTERNATIONAL PACKAGE	
Free Domicile	- The shipper pays all costs of delivery, including customs clearance fees, directly to the door of the consignee.
Split Duty and Tax	- Shipper's UPS account is billed for shipping charges and duties. - Receiver's UPS account is billed for all taxes.
AIR FREIGHT	
Shipper's Check Received	
- Delivery Duties Paid (DDP)*	Fees vary by country and seller's charges.
- Delivery Duties Unpaid (DDU)*	Importer is responsible for fees that vary by country.

**For a quoted price, the seller/exporter clears the goods for export and is responsible for making them available to the buyer at the named place of destination cleared for import, but not unloading them from the transport vehicle.*

For international shipments, the above billing options can be used in combination with one another, allowing the shipper, receiver or third party to be billed for all or part of the shipping charges. International shipping charges typically include the cost of transportation, duties, brokerage fees and taxes.

Unless otherwise specified at the time of shipping, shipping charges are billed to the shipper. In the event of non-payment by the consignee or third party, the charges are billed to the shipper.

Managing Inbound Charges

Control who can and cannot bill shipping charges to your UPS account number. There are two convenient ways to manage this process. Select the option that is appropriate for your business needs.

- Allow any shipper to bill shipping charges to your UPS account number, except for certain shippers you wish to exclude.

- Allow only certain shippers to bill shipping charges to your UPS account and exclude all others.

To begin controlling your inbound charges, go to ups.com/billing.

Consolidated Payment Plans

A Consolidated Payment Plan offers a convenient way to aggregate UPS invoices for multiple UPS account numbers into a single invoice for payment.

Consolidated Payment Plans can be created for UPS domestic, export and import invoices.

To learn more about Consolidated Payment Plans, call 1-800-PICK-UPS®.

Managing Additional Charges

Additional charges can occur when shipments are not processed properly.

Tips for avoiding these charges may be found at ups.com/avoidcharges.
