### Specification Chart

<b>Product</b>	UV Filter, 6Watts
<b>Model Name</b>	OPP-UV6W
<b>Input Voltage</b>	110V/220V .50Hz
<b>Input Ampere</b>	.162A
<b>UV Lamp</b>	G6T5-6W
<b>UV Output</b>	1.7W
<b>Sterilizing Capacity</b>	1GPM
<b>Water Temperature</b>	32°F-104°F
<b>Outside Dimensions</b>	1.9 x 11"
<b>Connections</b>	1/4" Push-In

The PureWaterClub ultraviolet water disinfection lamp is a great addition to any reverse osmosis or filter system to help reduce giardia, cryptosporidium, coliforms, bacteria, viruses and other biological pathogens. The end cap illuminates to give a visual confirmation that lamp is on. Available in 1/2 gpm and 1 gpm flow rates.

NOTE: Replace UV Lamp every 12 months to ensure UV intensity for maximum protection
